AUGUST WEDDING.

A pretty mid-summer home wedding took place on Wednesday evening at the home of the bride's mother, Mrs. E. A. Fisher at 269 Mass. avenue. The contracting parties were Mr. Wilbert E. Marshall, our popular and prosper ous photographer of the Litchfield studio, and Miss Ida M. Fisher, a handsome and popular young lady of this nized by the Rev. C. H. Watson, D. D., of the Baptist church. The wedding was a strictly family one, only the relatives witnessing the ceremony. The bride looked beautiful in white organdie made over white silk. Mr. and Mrs. Marshall left for a wedding trip to Novia Scotia, and they will also make an extended trip through this country. September 1st, to Arlington, where they will make their future home at 13 Whittemore street. The house has I. E. ROBINSON & CO.. been elegantly furnished throughout by Mrs. Fisher as a wedding gift to her daughter. There were also many costly gifts from numerous relatives, consisting of pictures, solid silver, cut glass, and beautiful china. The happy couple have the heartiest congratulations of Builder, a large circle of friends for their future journey through life. Mr. Marshall is of the firm of Marshall & Grant.

ENJOYABLE BAND CONCERTS.

We are all under many obligations to Arlington's Improvement association for inaugurating the band concerts our people are now enjoying, and to which they have so generously responded in meeting the expenses therefor. There is a wonderful and varied charm in music, and especially is this true in the stirring yet softened notes of the village band. The soldier goes into the fiercest of battles with a readier step, and with more courageous heart, as he is called to duty by fife and drum. There are instances on record where the severest operations by the surgeon's knife have been endured by the sufferer with additional heroism through the soothing influences that come from song and harp.

Music holds its own from the cradle to the field of carnage. It is manysided, so there is no spot or place in all chief of which is that it is an art preserthe wide world to which it does not find vative of human life, and then again it a gladsome weleome. > The A. V. F. A. committee have arranged everything for the annual league meet at Waltham next Thursday. They will be conveyed there by special cars of the Lexington Electric R. R. The car will leave the heights at eight o'clock, a. m., and returning in the special car after the playout. Tickets special car after the playout. and badges can be procured of the com-mittee or at Tilden's drug store.

Next Thursday the yearly league muster of hand engines is to be held at Waltham. As we go to press some 44 entries have been made, which will make it the largest muster ever held. The A. V. F. A. will be on hand with Eureka, ready to bring home a prize, and if nothing breaks or gives way they will. A more sturdy set of men never were placed on the brakes than ours. Here's hoping she will win. The company hope a large number will go to the muster with them.

For some time the street department has been at work on Mt. Vernon street, grading and paving the gutters. The work is nearly completed, only about 150 feet remaining to be cut down, with as poles must be set near the sides of the exception of a couple of places. It is a pity this department did not have money enough to curb the street the entire length, but Supt. Kimball has had the paving along the edge of the walks laid on a steep slant, so that the Col. George W. Knowiton went to water will not have a chance to wash away the same.

The new 1900 directory, published by Mr. E. A. Jones, is out of the binders' and delivered this week to advertisers and subscribers: Those who do not have one should buy one at once, as it is the best directory ever gotten up for this town. The arrangement of Mass. avenue and Broadway is a new feature, and now every one can find the number without going any distance. A tele-phone list has been added, and the society list is perfect. Taking it all in all, Mr. Jones has gotten out a book which should command a ready sale. The price is \$1. The general make-up of the book is excellent, and is printed on an unusual quality of perper. on an unusual quality of paper.

Mr. Michael Mulkern of West Medford, but widely known here, being a member of St. Malachy's church, died at his home, Tuesday. On first coming to this country he resided in Belmont, and about 10 years ago moved to West Medford. He was engaged in the milk gone in a short time.—Transcript.

niff, one of Arlington's oldest citizens, died suddenly at his home at 1042 Mass. avenue. He had been on a business A woman, giving her name as Ellen errand and returned shortly after ten o'clock, complaining of a weakness about the heart. His wife prepared a plaster and had him lay down while she went to prepare a warm drink. On returning she found him dead, he apparently having fallen asleep. The deceased was born in County Cork, Ireland, and came to this town some 50 years ago. He worked on the farm of the late Elbridge Farmer for a number of years. The deceased was at one time a member of the old Eureka engine company. When first coming to town he had to walk to Old Cambridge to church services. A son, William T., and two daughters survive him. On Thursday the remains were conveyed to St. Malachy's church, where Rev. J. M. Mulcahy celebrated solemn high mass. The interment was at East Woburn in the family lot. There were many floral pieces, the most prominent being a large pillow of roses and astors, with a white pink center bearing the words "At rest," from Division 23, A. O. H., in expression of sympathy; a sheaf of wheat, a cross of ivy leaves, roses and pinks, and a broken column of white astors, with base of ivy leaves and roses.

All her seats are the track in various contests of speed and manipulation. This will be the pioneer appearance of motor carriages at any agricultural fair, and no effort will be spared to make a great success of this feature. Much is expected of the dog show exhibit, which is also a new effort on the part of the committee to meet the public demands, and many owners of high-class dogs have signified their intention of competing for the valuable prizes offered.

The destruction of trees by the electric current is a matter of some moment just now. The question as to the right of telephone companies to cut the branches of trees which interfere with the stringing of their wires has been taken into court, and the decisions vary in different states. In New York a recent decision was to the effect that the right of the companies to touch the trees must be justified by an exhisting necessity, and that no right exhists to touch the trees unless extreme or extraordinany means must be employed to avoid the trees. In Michigan, however, the Supreme Court held recently that the street or road, and as they are generally outside of the ditch or curb line, they must of necessity interfere with the trees. Further, the court says that the right having been given to erect the poles and wires, the right must also be given to remove the obstructions, as highway officers have such rights when engaged in highway work within their jurisdiction. The experience with the wires with heavier currents, however, has been that the tree might as well be removed as to cut any of its branches to make room for the wires to be strung. In Brooklyn, for instance, the trolley current is destructive to the trees when it is run near them. The feed-wires of the Third avenue line below Stxty-fifth street have nearly ruined the big shade trees which lined that avenue nearly out to Fort Hamilton. Somelycars ago they were fine big trees, casting a delightful shade. Now they are dying fast, and but a few stumps with foliage at their roots mark the spot where the

west, and were in listening attitude when the curtain rose. It must be remembered that we had immediately in front of us Black Mountain with its 4000 feet of altitude, while to our left Young Mountain loomed up bidding defiance to the on-coming storm. The moon was both to valley and mountain, so that all things took on an indescribable charm. All this, while there were to be seen in the western skies, which touched so lightly and so lovingly withal upon the very highest peak of the mountain, what is commonly termed "heat lightning," but which, as a matter of fact, is

knew by the glimmering of the atmosphere, extending over this entire mountain range, that the heavens would soon be ablaze, followed by the deep-toned thunder reverberating throughout every nook and corner of this attractive and picturesque valley. We sat and mused and puffed our Havana as the clouds came creeping on,

until at last they made their appearance above the heights. Now and then we could catch a glimpse of the forked lightnings' playing on the very tip of the mountain, and, occasionally leaping down one side of the everlasting hills, they seemed to say to us "move your chair up nearer." We, however, were content to keep our distance, as we could easily see and hear the brilliant manifestations of the heavens from the position we had first taken up by reason of its supposed safety. Have you, reader of this communication, ever care. fully watched the on coming of a thunderstorm? If you have, you must have been impressed with the gradual approaches which nature makes in coming to you either in storm or in sunshine. The dawn always prepares one for that full burst of sunshine which ushers in the new-born day. And in no way different does she, the lover of us all, come to us in cloud and in storm. Nature never "strikes twelve" the first time. So with that magnificant and thrillingly-interesting storm of last evening both sky and earth at first blended in softened and tuneful harmony, giving inviting assurance that all would be well in spite of the fury of the elements.

At last the storm was upon us in all its sublime grandeur. The lightnings played from the horizon to the zenith in startling brilliancy, and leaped from peak to peak of these grand old mountains in so graceful and charming a way that the thunders applauded with all The list of premiums together with that demonstrative enthusiasm which gave character and emphasis to the indescribable scene. For full three hours the play went on. and until the rain came down we sat under the charmed spell, saying with Goldsmith: "I am creation's heir; the world, the world is mine." Isn't it singular that so many of us flock to Boston to see art illustrated upon the stage when art after nature's own fashioning is to be seen all about us? And what is more, when the great artist himself is anxious to give us his personal presence while attempting to take in the manifold beauties of his handiwork, Yes, it is singular, and beyond explanation, why we so persist in turning from the original that we may say to our neighbor that we paid two dollars for a ticket to see the copy as acted in

> We'll venture there are men and women in Arlington who have never seen the sun go down in that far-off western horizon as viewed from the picturesque heights of Dr. Ring's sanatorium at Arlington Heights who have more than once put themselves to no little inconvenience to see a sunset scene upon canvas as pencilled by some artist with human hand.

> Well, the shower is over, the lightnings have ceased their play, while the thunder can be heard only in these faroff mutterings which tell that the last act has been performed. The stars have reappeared in unwonted brilliancy, and the moon emerges from the cloud, unmasking her beauty to all the world below. And thus ended our entertainment at Mountain Side Cottage on Monday evening. Is it any wonder that at a late hour we laid ourselves down to dream of "a new heaven and a new WILSON PALMER.

Perhaps no lake can lay so great claim upon the tourist and pleasureseeker as can Lake Winnipesaukee. Its every environment leads to health and pleasure, and that these are the salient qualities which have made the lake famous is shown by the great and everincreasing number who seek annually the resorts with which the shores of Winnipesaukee abound. The sad news of the death of Rev. Cyrus Hamlin, D. D., was received here Thursday morning from Portland, Me., where he went Tuesday with his wife tended an "old home week" reception Mr. Edward C. Jacobs will spend his the previous evening in that city, and upon arriving at the residence of Mr. D. H. Farley he fell to the floor and expired suddenly. He was born in Waterford, Me., Jan. 5, 1811. At the age of 19 he commenced to prepare himself for the ministry, taking first a course of study at Bridgeton academy and afterward entered Bowdoin college, and while there won for himself great fame. After graduating from Bowdoin he took a three years' course at the Bangor seminary. He was ordained a minister into the Congregational faith and took up his work. He was sent to Constantinople by the American Board of Missions, where he built Roberts college. His life has been wholly given up for the good of others, and many living monuments today tell of his christian qualities and kind deeds. His work in Turkey was a grand one. Dr. Hamlin has been a professor in the retired from active professional work in 1885, and came with his wife to live here in Lexington. A WARM DISCUSSION.

JERICHO AGITATED ABOUT A SCHOOL-HOUSE LIGHTNING ROD.

It was a lightnin rod man who started the schoolhouse discussion. He came along the other day and saw that the schoolhouse was without a rod, and he went to the town board and offered to put one up for so much. The town board wrastled over it all day without comin to a conclusion, and when it got to be known all over Jericho a big crowd assembled at the postoffice in the evenin to talk the matter over. It was Deacon Spooner who called the crowd to order and said:

"As it appears to me and to a majority of the citizens of this town that an epoch in the history of Jericho has arrived, I call upon the lightnin rod man to state his case."

"There ain't much to state." replies the man. "I've offered to put up two rods on the schoolhouse and warrant it a good job for \$40. Bein as a schoolbe said to be the bulwarks of liberty, I've knocked \$15 off the reg'lar price."

A PAIR OF BALLET SHOES

A Story of the Stage.

"Really I'm the dullest of men," said Edgar Brooke, with the smile of long suffering, to a youthful interviewer who was trying to pick up a few more crumbs of interest at the end of his long talk with the most inimitable comedian of the day. Edgar Brooke glanced abstractedly round his study the arm of the Demon King. and racked his brains for a suitable anecdote, but he couldn't for the life of him remember at the minute any of the antiquated theatrical stories that every actor makes his own.

The youthful interviewer's eyes wandered curiously around and fell on a quaint little pair of shoes which were hanging over the oak fireplace-not dainty slippers, spangled and gay, but just a limp memento of the ballet, with rounded toes, no heels and an old covering of silk, worn and frayed. They hung against the wall, with the little toes turned in, as if their dancing days were over and they were far too weary for a pirouette or even the first position. "A curious souvenir, Mr. Brooke."

Edgar Brooke smiled, and there was silence for a minute.

The comedian had forgotten the youthful interviewer. He seemed to till tonight. I'll tell you something see the little shoes dancing on the wall. His comfortable room faded out of sight. There was the sound of scraping fiddles and the flare of gas. Twenty years had slipped away in hardly as many seconds.

It was behind the scenes of a country theater. The close air of a little room almost stifled Edgar Brooke. dressed with the Pantaloon, two acrobats and the Demon King of the pantomime.

Their clothes were heaped on a basket in one corner. The Pantaloon was "making up," and the Demon King was drinking whisky and soda and reading scraps from The Sporting Times to amuse the two acrobats.

Edgar Brooke, hungry eyed, lean and haggard, sat with his aching head between his hands. His tinseled harlequin suit was loose for his waste body. Months of illness, hard luck and poverty had taken the heart and soul out of him.

He gave a sigh of thankfulness when his noisy comrades were summoned to the stage and he was alone.

"Heard that Brooke has got the sack?" said the Pantaloon.

"Yes. poor devil!" answered the De-

"Eddy, darling!" she exclaimed, running into the room and perching herself on the Pantaloon's basket. The young man looked up, too wretched to hide the marks of tears on his face or to try to control his unsteady lips.

"It's all up, Kitty," he replied. got my notice, dear. Run down stairs -you shouldn't come up. One day they'lı catch you."

"My own love," said the Columbine, jumping off the basket and kneeling down beside him, "you don't know yourself-none of these fools know you. You're worth more than the whole lot!"

"Oh, Kitty. Kitty! I can't bear it!" Broken by weakness and despair, he People. drew Kitty's slender arms around his neck and, resting his head on her shoulder, sobbed aloud.

"You must cheer up, Eddy!" she whispered.

quin had to take the usual flying leap through a window.

Brooke and his sweetheart again made their entrance hand in hand.

"Stand still. Eddy!" she whispered, and then danced around him with a hundred little tricky steps and beckoning gestures.

The cue came. Harlequin struck the ground with his wand and leaped. It was a last effort. Luck and training guided him to the right spot. He shot through the window as cleanly as an arrow and was campht by the men who were waiting to receive him. He rose to his feet, still clinging to their arms, staggered a minute and then fell fainting to the ground.

"Plucky little chap!" said one of the

"Not an ounce of flesh on his bones!" said the other.

When Edgar Brooke came to himself, he was lying on a bench hastily dragged on to the stage. He saw that the gas jets in the flies were turned off. The curtain was raised, for the noisy audience had poured into the streets. His bench was near to the footlights, but they, too, were lowered, and it was an anxious, whispering group of people on every side that gradually crept into his consciousness.

There was the manager stooping over him, with a hand on his breast and a big finger pressed to his pulse. Beside him was the clown. Mest of the girls were still in their costumes, with their hair falling untidily on their shoulders. The whole scene was shadowy and strange to the pale, exhausted Harlequin as he sank back again on

He closed his eyes, but suddenly the ringing voice of his Columbine seemed to leap out of the babel of tongues.

At first he could not follow what she said. He only saw how erect was the little figure, at once pathetic and eloquent of love and the fierce earnestness of youth.

Slowly her words took shape, disconnected and broken as the sentences

"In a couple of months this old panto will be over!" she said. "We shall all go east and west-the Lord knows where? But look here-we've been good friends. haven't we-jolly, good friends? You fellows have been kind to me, all of you. But there's one of you that I love-there! I love him! Why? Because he's fought against trouble and poverty and illness, because his heart has never failed him else.

There was such intensity in her voice and face that she held them silent and absorbed for a few minutes more.

"It's just this: Edgar Brooke has no soul on earth to turn to! I tell you he's danced in a booth; he's sung in the streets: he's worked: he's starved; he's looked at life under the canvas: he's thought of death under the skies. That's the stuff for an actor to be made

Edgar Brooke put out his hand to stop her, but she went on, with flash-

"Well, what do you say? Shall it be a round robin for the sake of our own hard times? Come! We all know where the shoe pinches.'

She bent down and pulled off one of her own shoes and held it out to the manager first of all. He might have resisted the disconnected little speech. but not the pretty face turned up so appealingly to his-a couple of coins

The ring of encouraging voices, the flicker of uncertain lights, the touch of the girl's fingers twined round his hand faded into misty shadow of sound and sight, and were gone as swiftly as they came.

"A curious memento, Mr. Brooke?" said the youthful interviewer again, recalling the popular comedian to the faded ballet shoes.

"Yes, yes," said Edgar Brooke light-"But it would scarcely interest you. By the way, did I tell you that my wife was a dancer-before we married-a long time ago?"-Mainly About
